Item specifics

Condition: Brand New

Model: ECR50SB1-B 25x2P 50P Right Angle pins (245-50)

Contact Material: Brass

MPN: 245-50

Body Material: Polybutylene Terephthlate (PBT)

Brand: Morlinkom Centronic

Gender: Female

Number of Ports: 50

Compatible Mounting Type: Through Hole

Compatible Wire Gauge (AWG): 20

Country/Region of Manufacture: Taiwan

Number of Pins: 50

eBay item number: 130970278382

Termination Type: Solder

UPC:

General Guide about shipping

Combine shipping with other items to reduce shipping cost are welcome, and please waiting my new invoice paying by eBay auto-checkout, because it is usually uncorrected.

Will ship worldwide by post "Airmail registered small package without insurance"

The delivery is usually 2 weeks, but no warranty about delay depends on the post

The delivery is usually 2 weeks, but no warranty about delay, depends on the post.

If you need the fastest delivery, take EMS please, but more expensive.

If you need insurance, email me before paying, please.

If items total price is over US\$60, please consider to do insurance for them.

I am notifying you, because this is a registered package, so, please arrange to have someone at home to receive the delivery. If you have problem, email me before shipping please, I will change to regular airmail without registered package risk is so high, and I can not response for it.

Note : How do calculate the combine shipping ?

I will check the package weight if over 760g, if over, then will auto change to post "Airmail parcel with insurance", to save your money.

For any under 760g package, and all items price under \$60, then will ship by post "Airmail registered small parcel with insurance", and calculating by below steps :

(1). Basic price=choice first lot the highest shipping price from all items.

(2). Plus other items their additional lot shipping price.

For example 1 :

If you buy some item, and order 4 lots.

the shipping cost listing on eBay are: \$5.5(first), \$0.75(each additional).

So the total combine shipping cost=\$5.5+\$0.75x3= \$7.75 .

For example 2 :

you buy 3 different items, and each item all is 1 lot, and each shipping cost listing on eBay

item1=\$5.5(first), \$0.75(additional, second lot), item2=\$5.75, \$1, item3=\$8, \$2.

So the total combine shipping cost=\$8(item 3)+\$0.75(item 1)+\$1(item 2) = \$9.75 .

For example 3 :

you buy 3 different items, and item 1=3 lots, item 2=2 lots, item 3=2 lots,

and each shipping cost listing on eBay :

item1=\$5.5(first), \$0.75(additional, second lot), item2=\$5.75, \$1, item3=\$8, \$2.

So the total combine shipping cost=

\$8(item 3)+\$2(item 3)+\$0.75x3(item 1)+\$1x2(item 2) = \$14.25 .

Hope you can understand. You can calculate by yourself or ask me a combine shipping cost quotation before directing order and wait a moment, I will sent a new and correct invoice to you.

About the import duties/fee, taxes:

Usually, will write only 1/2 actual value or less than \$30 to your customs to avoid the possible import fee for "registered Airmail package", and actual value less than \$60 of order.

Anyway, the Import duties, taxes and charges are **not included** in the item price or shipping charge.

These charges are the buyer's responsibility.

Please check with your country's customs office to determine what these additional costs will be prior to import.

Thanks for you looking.
